

MBA/MAC DUAL DEGREE PROGRAM

The Master of Business Administration (MBA)/Master of Accounting (MAC) dual degree develops professionals to be ethical, socially responsible, and values-based leaders who have deep knowledge in the field of accounting. The streamlined 48 credit hour dual degree can be completed in considerably less time and cost than if the two degrees were earned separately. For the MAC student, the 9 hours of MBA core courses would be dual counted with the MBA. Accounting core courses and electives could be counted toward the 12 hours of MBA courses electives. For the MBA student, the 9 hours of MBA courses would be dual counted with the MAC program. MBA electives, if carefully selected, would fulfill the core elective courses of the MAC program. For the student engaged in both degrees concurrently, the 48 hours are achieved by taking five additional courses (15 hours)

Foundation

Applicants must meet the admissions requirements for both the MBA and MAC degree programs. All MBA/MAC students will work with the Graduate Business Programs office and the MAC program coordinator to develop a plan of study reflecting the students' academic and work backgrounds, business competencies, and career goals. Plans of study will consist of courses from the Functional Core and/or from an extensive list of Concentration courses. The relative emphasis of a student's plan of study on each of these areas will depend on each student's academic and business background.
