

HEALTH SCIENCES FACILITIES

The **CL Werner Center for Health Sciences Education** opened in August 2023. The 135,000 square foot building serves as a symbol of Creighton's commitment to the health sciences and the interprofessional model used to teach them. The School of Medicine's home will bring together medical, nursing, occupational therapy, physical therapy, pharmacy, physician assistant, behavior health and other students. The modern facility features active learning classrooms, a simulation center, research laboratories, cutting edge technology, equipment, and spaces. A skywalk with comfortable seating crosses the street and connects to the Criss Health Sciences Complex

The **Doctor C. C. and Mabel L. Criss Health Sciences Complex** provides health science classrooms, multipurpose laboratory spaces, and seminar rooms and is the main facility for the research activities of the faculty of the School of Medicine. In addition, the Criss Health Sciences Complex accommodates the administrative support area for the School of Pharmacy and Health Professions as well as administration and faculty offices for Physical Therapy and Occupational Therapy. The administrative offices of the School of Medicine and School of Nursing are also located in the Criss Health Sciences Complex.

The **Cheryl and Robert Greenwood, BSPHA'77 Family Pharmacy Skills Lab** located in the Old Gym, also known as the Vinardi Center at 24th and Burt streets, is perhaps like no other space on Creighton's campus. The over 100-year-old building has experienced such a variety of inhabitants and once held the home court for men's basketball, women's basketball and volleyball, and housed a pool for Creighton swimming and diving teams. Dances, commencements, class registrations and athletic practices were all held there; ROTC, the Athletic Department, a computer center and more have called it home. The sleek, tech-savvy lab accommodates 85 pharmacy students and has areas for sterile and nonsterile compounding, community pharmacy simulation and drug information activities. The lab also contains nine rooms for practicing patient counseling and is equipped to teach distance learners. The building also houses the School of Pharmacy and Health Professions' Center of Drug Information and Evidence Based Practice and Center for Medication Therapy Management. These centers serve as training sites for students in the Doctor of Pharmacy program

The **Hixson-Lied Science Building** is connected to Criss Health Sciences Complex and provides expansion space for functions of the health sciences programs. The Hixson Lied Science Building is comprised of health science classrooms, undergraduate science departments, and administration and faculty offices of the School of Pharmacy and Health Professions.

The **CHI Health Creighton University Medical Center Bergan Mercy** was established in 2017 and is a place where patients are at the heart of our patient-focused care. The campus is designed to heal the body, mind, and spirit of every person in a more comfortable, less stressful hospital environment. A full range of medical services include heart and vascular care, emergency services, surgery, maternity, cancer care, and diagnostic imaging. The facility serves as the major affiliated teaching hospital for the Creighton University School of Medicine, School of Pharmacy and Health Professions, and College of Nursing.

The **CHI Health Creighton University Medical Center University Campus** is an 80,000 square foot community health center that serves the health care needs of the downtown and northeast Omaha communities. Planned and designed in collaboration with the neighborhoods the

facility will serve, a full complement of health professionals are ready to care for patient needs. Care teams work together to provide the right kind of care, and the center serves as a model for Creighton University's interprofessional education (IPE) for health care program.

The **Phoenix Health Sciences Campus** opened in 2021 at Park Central in midtown Phoenix. The 183,000-square-foot Phoenix campus is home to a four-year medical school and will accommodate nearly 900 students, including future physicians, nurses, occupational therapists, physical therapists, pharmacists and physician assistants. The modern facility features cutting-edge technology, equipment and spaces that will enrich Creighton's Jesuit education. On campus and in the community, students will have opportunities to develop skills and transform health care.
